

8+2 ports Gigabit Ethernet Desktop Switch

A02-F8-2C

It supports eight 10/100 Fast Ethernet ports. These ports run both half duplex and full duplex while they're running in 10Mbps or 100Mbps and runs full duplex (arriving so to a speed of 200Mbps).

There are two additional 10/100/1000Mbps Gigabits Ethernet ports, which can communicate with your server and allow the construction of a Gigabit backbone (2000Mbps).

The flow control allows to check the state of the buffer of every port limiting the congestion of the net.
